

# Autotask Integrated Customer Billing

Accurately bill your customers for the Kaseya services you provide to them.

Eliminate hours of manual reconciliation and optimize your revenue by automatically updating Autotask contracts with each customer's usage of Kaseya products.

- Reduce back-office burden by eliminating the need to manually "true-up" quantities of sell-through products every month.
- Easily adopt new services without worrying about the administrative stress in recovering those vendor costs from your customers.
- Optimize your revenue by billing what you're entitled to – live consumption.
- Improve customer satisfaction, eliminate billing errors and reduce invoice regeneration by billing right the first time.

## Integrated Customer Billing details

- Easily manage multiple products as usage data from all connected products are fed to KaseyaOne, which acts as the central integration hub.
- Flexibility to map customers one-to-one or map multiple organizations to one Autotask Account.
- Intuitively map consumption data from each product to Autotask Services within Contracts.
- Automatically prorate charges associated with quantity updates daily or adjust the quantity at the end of the month.

## At-a-Glance Benefits

- Eliminate manual work by automatically updating Autotask contract quantities.
- Improve customer experience by billing right the first time.
- Seamlessly connect products through KaseyaOne.

## Getting Started

Visit the [Kaseya Knowledge Base](#) for step-by-step instructions on how to setup Autotask Integrated Customer Billing.

For partners requiring assistance with integration set up, please contact our support team by emailing [support@kaseya.com](mailto:support@kaseya.com)

Compliance Manager Billing Type	Autotask Service	Adjustment Frequency	Ignore
Per Device	Compliance - Device	Daily (full period billing)	<input type="checkbox"/>
Per Server			<input checked="" type="checkbox"/>
